Appendix C - 2013 Intended Projects Lists

The Intended Projects Lists are composed of projects which are candidates for funding in the 2013 program year based upon 1) their priority ranking, 2) the amount of WPCLF funds expected to be available, and 3) their readiness to proceed (as defined in Appendix A).

Fundable projects included in the Intended Projects Lists that do not make timely progress towards receiving a loan award may be deferred for funding consideration to a later date or another program year, in accordance with the provisions of Section IV.D.5. of the Program Management Plan.

Fundable projects not making timely progress toward achieving a loan award during the program year may be by-passed for funding in the 2013 program year.

The Ohio EPA will consider projects from the following table for funding that are expected to be ready to proceed and enter into binding loan commitments during the program year. The only exceptions to this limitation are described in paragraph IV. D. 9. The WRRSP projects intended for 2013 funding are shown below.

The 2013 Intended Projects List for non-WRRSP projects follows below. The Principal Forgiveness column displays the percentage of principal forgiveness that the project can receive.
