

2020-390 - Exhibit A

Ohio Water Development Authority Project Design Loan List

1. Q-836 Pump Stations 62, 63, and 82 Improvements Project

Design Loan; Loan Amount: \$639,433.00

County Council Authorization: 2018-472, 2020-307 (Ex A), and 2020-314

Project Description: The project is to design Pump Stations that will replace Pump Stations 62, 63, and 82 due to aging and structural deterioration caused by Inflow and Infiltration. PS #'s 62 and 63 are located in Coventry Township, and PS # 82 is located in the City of Tallmadge. Similarly, the project will also design new force mains to be used for/at Pump Stations 63 and 82.

2. Q-185 Elimination of Hudson Sanitary Sewer Overflow Area J Project

Design Loan; Loan Amount: \$574,919.60

County Council Authorization: 2017-359, 2020-307 (Ex A), and 2020-315

Project Description: The project is to eliminate sanitary sewer overflow and address excessive Inflow and Infiltration on Owen Brown Street located in the City of Hudson, Ohio. Thus, the loan will go toward designing the project and/or developing the most viable option to address the issues happening on Owen Brown Street. Once the option is developed, DSSS will then bid the project for implementation.

3. Q-186 Elimination of Hudson Sanitary Sewer Overflow Area L Project

Design Loan; Loan Amount: \$427,336.19

County Council Authorization: 2017-358

Project Description: The project is to eliminate sanitary sewer overflow and address excessive Inflow and Infiltration on West Streetsboro Street located in the City of Hudson, Ohio. Thus, the loan will go toward designing the project and/or developing the most viable option to address the issues happening on West Streetsboro Street. Once the option is developed, DSSS will then bid the project for implementation.

4. Total cost of the design Projects will not exceed **\$1,641,688.79**
